

# Druck's most precise, accurate and stable pressure indicator

**PACE IRS3 is enabled by TERPS sensor technology at its core, which delivers unprecedented metrological characteristics and resultant levels of performance.**

## PACE1000 IRS3

- Enabled by Druck's unique TERPS technology
- Precision specification up to 0.0010% FS
- Accuracy up to 0.0004% RDG + 0.0027% FS
- Long term stability up to 0.0010% FS
- Up to three pressures displayed simultaneously on the screen
- Single or multiple pressure range configurations

### Built upon excellence

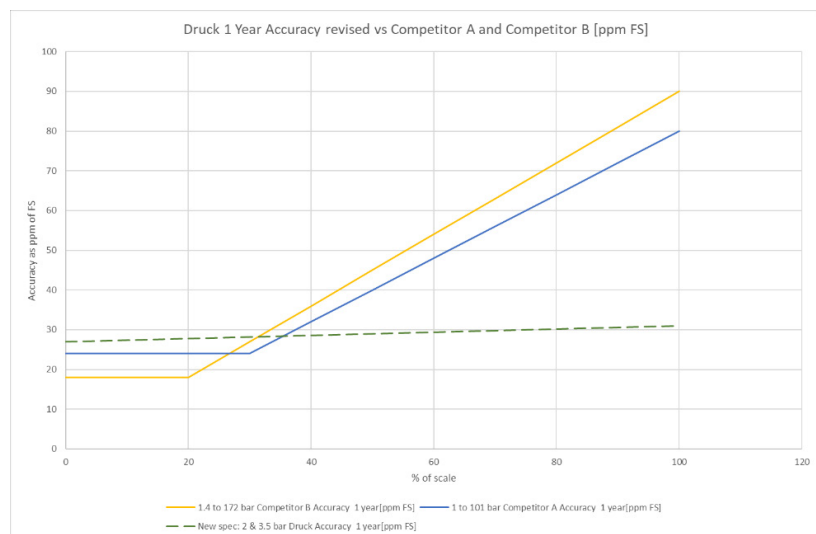

The PACE1000 precision pressure indicator brings together the latest technology from Druck to offer an elegant, flexible and economical solution to pressure measurement for test, calibration and monitoring.

PACE1000 offers a wide choice of standard pressure ranges, with four levels of precision to ensure that PACE1000 can accommodate specification and budget requirements.

### A combination of leading technology

Combining the established precision pressure indicator, the PACE1000, with our unique TERPS technology, Druck offers PACE IRS3 as **the** reference precision indicator.

The result of this new specification makes PACE1000 IRS3 an ideal solution for OEMs, meteorology, high accuracy sensor manufacturers, and calibration labs.
