- Zero-install client (all you need is a web browser to log in remotely)
- Wireless connectivity

Available devices

Visual Inspection

- XLG3
- Mentor Visual iQ

Ultrasound

- Mentor UT

Benefits

Waygate Technologies InspectionWorks Connect platform provides real-time access to inspections from anywhere, to anywhere in the world. Experts can view a live inspection happening across the globe, enabling smarter decisions, faster. Expertise delivered where it's needed, when it's needed to keep assets running and maximize efficiency.

Improve productivity

With live video and two-way chat and annotation features, remote experts can see what the inspector sees and instantly communicate, troubleshooting issues on the spot, without the inspector ever leaving the inspection site.

Increase asset uptime

Delivering global expertise virtually, InspectionWorks Connect allows inspectors and experts to make fast decisions on critical assets in real-time. It all adds up to a better way to extend asset uptime.

Control operating costs

Used as a virtual training tool, InspectionWorks Connect helps you decrease your operating costs by accelerating on-the-job learning. With instant access to remote trainers and experts, InspectionWorks Connect allows you to extend the reach of your inspection experts around the world, slash travel costs and minimize resource constraints.
