

# Masoneilan™ and Consolidated™ Regional Aftermarket Centers

Providing Industry-leading Innovation

Baker Hughes 

# Quality Aftermarket Support

## Experience and Innovation

Baker Hughes has combined years of quality aftermarket support experience with advanced distribution systems to create the innovative, industry-leading Aftermarket Center for our Consolidated and Masoneilan product portfolio. Offering a new concept in rapid aftermarket part and valve provisioning, the Regional Aftermarket Center approach is focused on providing the fastest possible equipment delivery—helping keep your plant running smoothly while reducing costs.

Baker Hughes Regional Aftermarket Centers solve the all-too-common issue of devastating delays caused when aftermarket orders are processed alongside new orders. Our unique approach to aftermarket delivery means that your order receives the attention and focus needed to boost your uptime.

## Responsive Professionals

Located in major regions of the globe, Baker Hughes Regional Aftermarket Centers are staffed with extensively trained professionals focused on rapid response. Our team comprises dedicated customer support and planning resources, offering immediate access to extensive expertise and best practices. Decades of knowledge help deliver the right solutions for even the most demanding applications under critical circumstances.

In addition, our dedicated machining and shipping resources help ensure that your order is processed and delivered efficiently and quickly. And when it comes to legacy valves and parts, our team is armed with the tools and experience to promptly handle your order. Watch here two videos of our **Deer Park** and **Naples** Aftermarket Centers.

# Broad Inventory Network

## Quick Access to High-quality OEM Parts and Valves

Working closely with our certified GTC (*Green Tag*™ Centers) and MARC™ (Masoneilan Authorized Repair Centers) channel companies, Baker Hughes has made a significant investment in our Regional Aftermarket Centers. To ensure that we have the right part or valve when you need it, we routinely carry more than \$40 million of OEM inventory on the shelf.

Our broad and deep inventory network offers the resources you need to help keep your plant operating. What's more, all of our parts and valves offer the quality and longevity that you have come to expect from Baker Hughes Consolidated and Masoneilan product portfolio.

# Problem Solved

## Rapid Responsive Machining

At Baker Hughes, we understand that your needs are unique to each situation, and standard parts and valves won't fit every scenario. That's why we are equipped with advanced machinery and technology to quickly fulfill special orders, such as an alloy trim part for a control valve or a high

temperature alloy disc for a critical safety relief valve. Our dedicated team of skilled machinists offers around-the-clock advanced machinery capability, allowing your part and valve requests to quickly move from an urgent need to a problem solved.

# Complete Valve Support

## Aftermarket Value Services

In addition to parts, valves and machining, Baker Hughes Regional Aftermarket Centers offers comprehensive, dependable support. With a team of dedicated service engineers on staff and access to a network of certified GTC and MARC channel companies, Baker Hughes provides a complete array of Consolidated and Masoneilan valve support and asset management services. We can help you plan, manage, and implement plant turn-around projects, conduct surveys, and manage crucial maintenance programs.

We provide expert management and maintenance services using advanced software and tools, such as the *ValvKeep™* tool. We also have the knowledge and resources to conduct valve diagnostics or testing with *Valscope™* Pro and *EVT™* PRO tools. In addition, the Smart Valve Upgrade program allows our technicians to effectively upgrade plant positioners.
