

Contaminant Extraction Services (CES)

Maximize the value of your hydrocarbon stream with reliable contaminant removal solutions

- Specialty chemical additives and mechanical solutions
- Synergistic application for high-quality, on-spec hydrocarbon stream
- Field system approach for streamlined operations
- Mobile/modular equipment for rapid deployment

CSE applications:

- Sulfur extraction
- Flare gas treatment
- Off spec water
- Emissions control
- Filtration
- Tank services
- Chemical cleaning
- Renewable diesel
- Heavy oil clarification
