

Mentor Visual iQ+ VideoProbe

The latest generation built for efficiency

Mentor Visual iQ just got an upgrade.

Improve your inspections and meet increasing standards with MVIQ+'s new and improved handsets and probes.

Due to groundbreaking technologies in image processing, Real3D™ measurement and workflow tools, the Mentor Visual iQ+ has had an upgrade to its hardware. This hardware upgrade enables tools and features to increase your inspection productivity while providing the most accurate asset assessment. See below for detail of what the MVIQ+ provides.

How do I make the change?

Simply contact a Waygate sales manager to get a quotation to trade-in your current system and receive the latest model. Send your current handset to one of our global service centers and receive the new MVIQ+ model in the equivalent model configuration (Inspect, Touch, Analyze/Start, Enhance, or Pro) as your original. Software will be updated to the latest version so you can immediately take advantage of all the innovative changes that make MVIQ+ the world's best video borescope.
