CHALLENGES WE SOLVE

World Class Inspection On Demand via Expertise, Access and Innovation

- Need X-ray expertise / guidance?
- Want access to the latest industrial X-ray technology?
- Help with application development?
- Require scan of a large or unique part?
- Short on inspection capacity?
- Have a recent failure event?
- Need world-class scan image quality?
- Require classroom or on-site training?
- Want to add a modality or improve your level?
- Support for qualification testing?
- Need collaboration with government institutes?
- Need a demonstration?

X-RAY INSPECTION INDUSTRIES AND APPLICATIONS

Battery

- Electrodes
- Welds
- Joints
- Bonds

Electronics

- Wearables
- Semiconductors
- Circuit boards / PCBAs

Automotive

- Batteries
- Electric motors
- Engine blocks
- Safety critical components

Institutions / R&D

- Engineering
- Biology
- Materials science

Aviation / Defense

- Blades and vanes
- Structural components
- Advanced materials
 - Composites
 - Additive Manufacturing

↓ THE BOTTOM LINE

Education, access to radiography technology and inspection services mitigate quality, safety and financial risks.
