# Druck Service Pune India

Think Services. Choose Druck.

## Expertise only the OEM can provide

Ensuring a predictable and transparent cost of ownership is a basic requirement for calibration instrumentation.

With best in class performance and service, Druck are uniquely positioned to minimise downtime caused calibration equipment repair. With a team of experienced industry experts, trust Druck as your service provider.

### Technical training and support

From Industry experts.

### Software connectivity

Automated calibration and connectivity with 4Sight2 Calibration Management Software.

### Inhouse + On-site NABL Calibration

Remote calibration in customer sites with NABL Accreditation.

### Preventive maintenance

Field service engineer visits to minimise unplanned downtime.

### Predictable costs

Fixed pricing for the period of contract (AMC).

### Repair service

In-house and on-site calibration and repair of Druck equipment.

# Calibration

## Overview

Part of the global energy technology company, Baker Hughes, Druck is positioned to offer market-leading technical support across the globe. With calibration, repair and technical support for the complete Druck portfolio, only the OEM can provide this level of assurance.

With our ISO/IEC 17025:2017 Accredited Calibration Laboratory, all calibration and repair is conducted to the highest standard.

## Included documentation

Calibrated products are provided with a calibration certificate including measurement uncertainty and traceability to National/International Standards.

## Turnaround time

Fast turn around time by OEM trained technicians using high accuracy calibration standards.

## Applicable products for calibration services

### Portable multifunction calibrators and gauges

- DPI610E
- DPI611
- DPI612
- PM620
- DPI620G
- DPI705E
- DPI104
- DPI832
- DPI880
- DPI740
- UNIK5000
- UPS-III IS
- PV624

### Pressure controllers and indicators

- PACE 1000
- PACE 5000 WITH CM0, CM1 & CM2
- PACE 6000 WITH CM0, CM1 & CM2

### Air data test set

- ADTS 542F
- ADTS 552F
- ADTS 553F
- ADTS 554F
- ADTS 405
- ADTS 403

### Electrotechnical\*\* (measure and source)

- > DCV | > ACV
- > DC mV | > AC mV
- > DCI | > ACI
- > TC | > TC mV
- > RTD | > FRQ

### PARAMETER CAPABILITY

### Pressure\*\*

- Pneumatic Pressure (0 to 210 bar g)
- Hydraulic Pressure (55 to 1000 bar)
- Vacuum Pressure (0 to -0.90 bar g)
- Absolute Pressure (0.1 to 3.5 bar abs)

\*\* For detail Uncertainty refer to NABL Applied Accredited Scope.

## Druck assured service plans offer tailored services to suit your needs:

### Scheduled NABL Accredited Calibration

- Using world class calibration standards

### Normal AMC

- Inclusive of Spares & Repair

### Comprehensive AMC

- As Needed

### Technical Training & Support

- Extended Warranty for New Product Supply

### Extended Warranty

- Extended Warranty for New Product Supply

## Peace of mind

Keep your instruments operating efficiently with frequent health checks. With the offering of a Druck Assured Service Plan covering unscheduled maintenance, we have capability to provide global support or large-scale support base. We can provide peace of mind by not having unexpected repair costs. Maximize your asset availability and productivity whilst reducing your downtime.

Get greater measurement confidence from equipment operating with accuracy and precision.

Increase your instruments uptime and restore them to optimum performance.

Lower your cost of ownership by utilizing our shared expertise.
